PHILOSOPHY

TIMELESS

True beauty is timeless. Not only it is rare to find, but even rarer to possess. But with Queo, you can change this forever. Each Queo product is so thoughtfully crafted that it transforms into a thing of beauty for the time that was, is, and is yet to come.

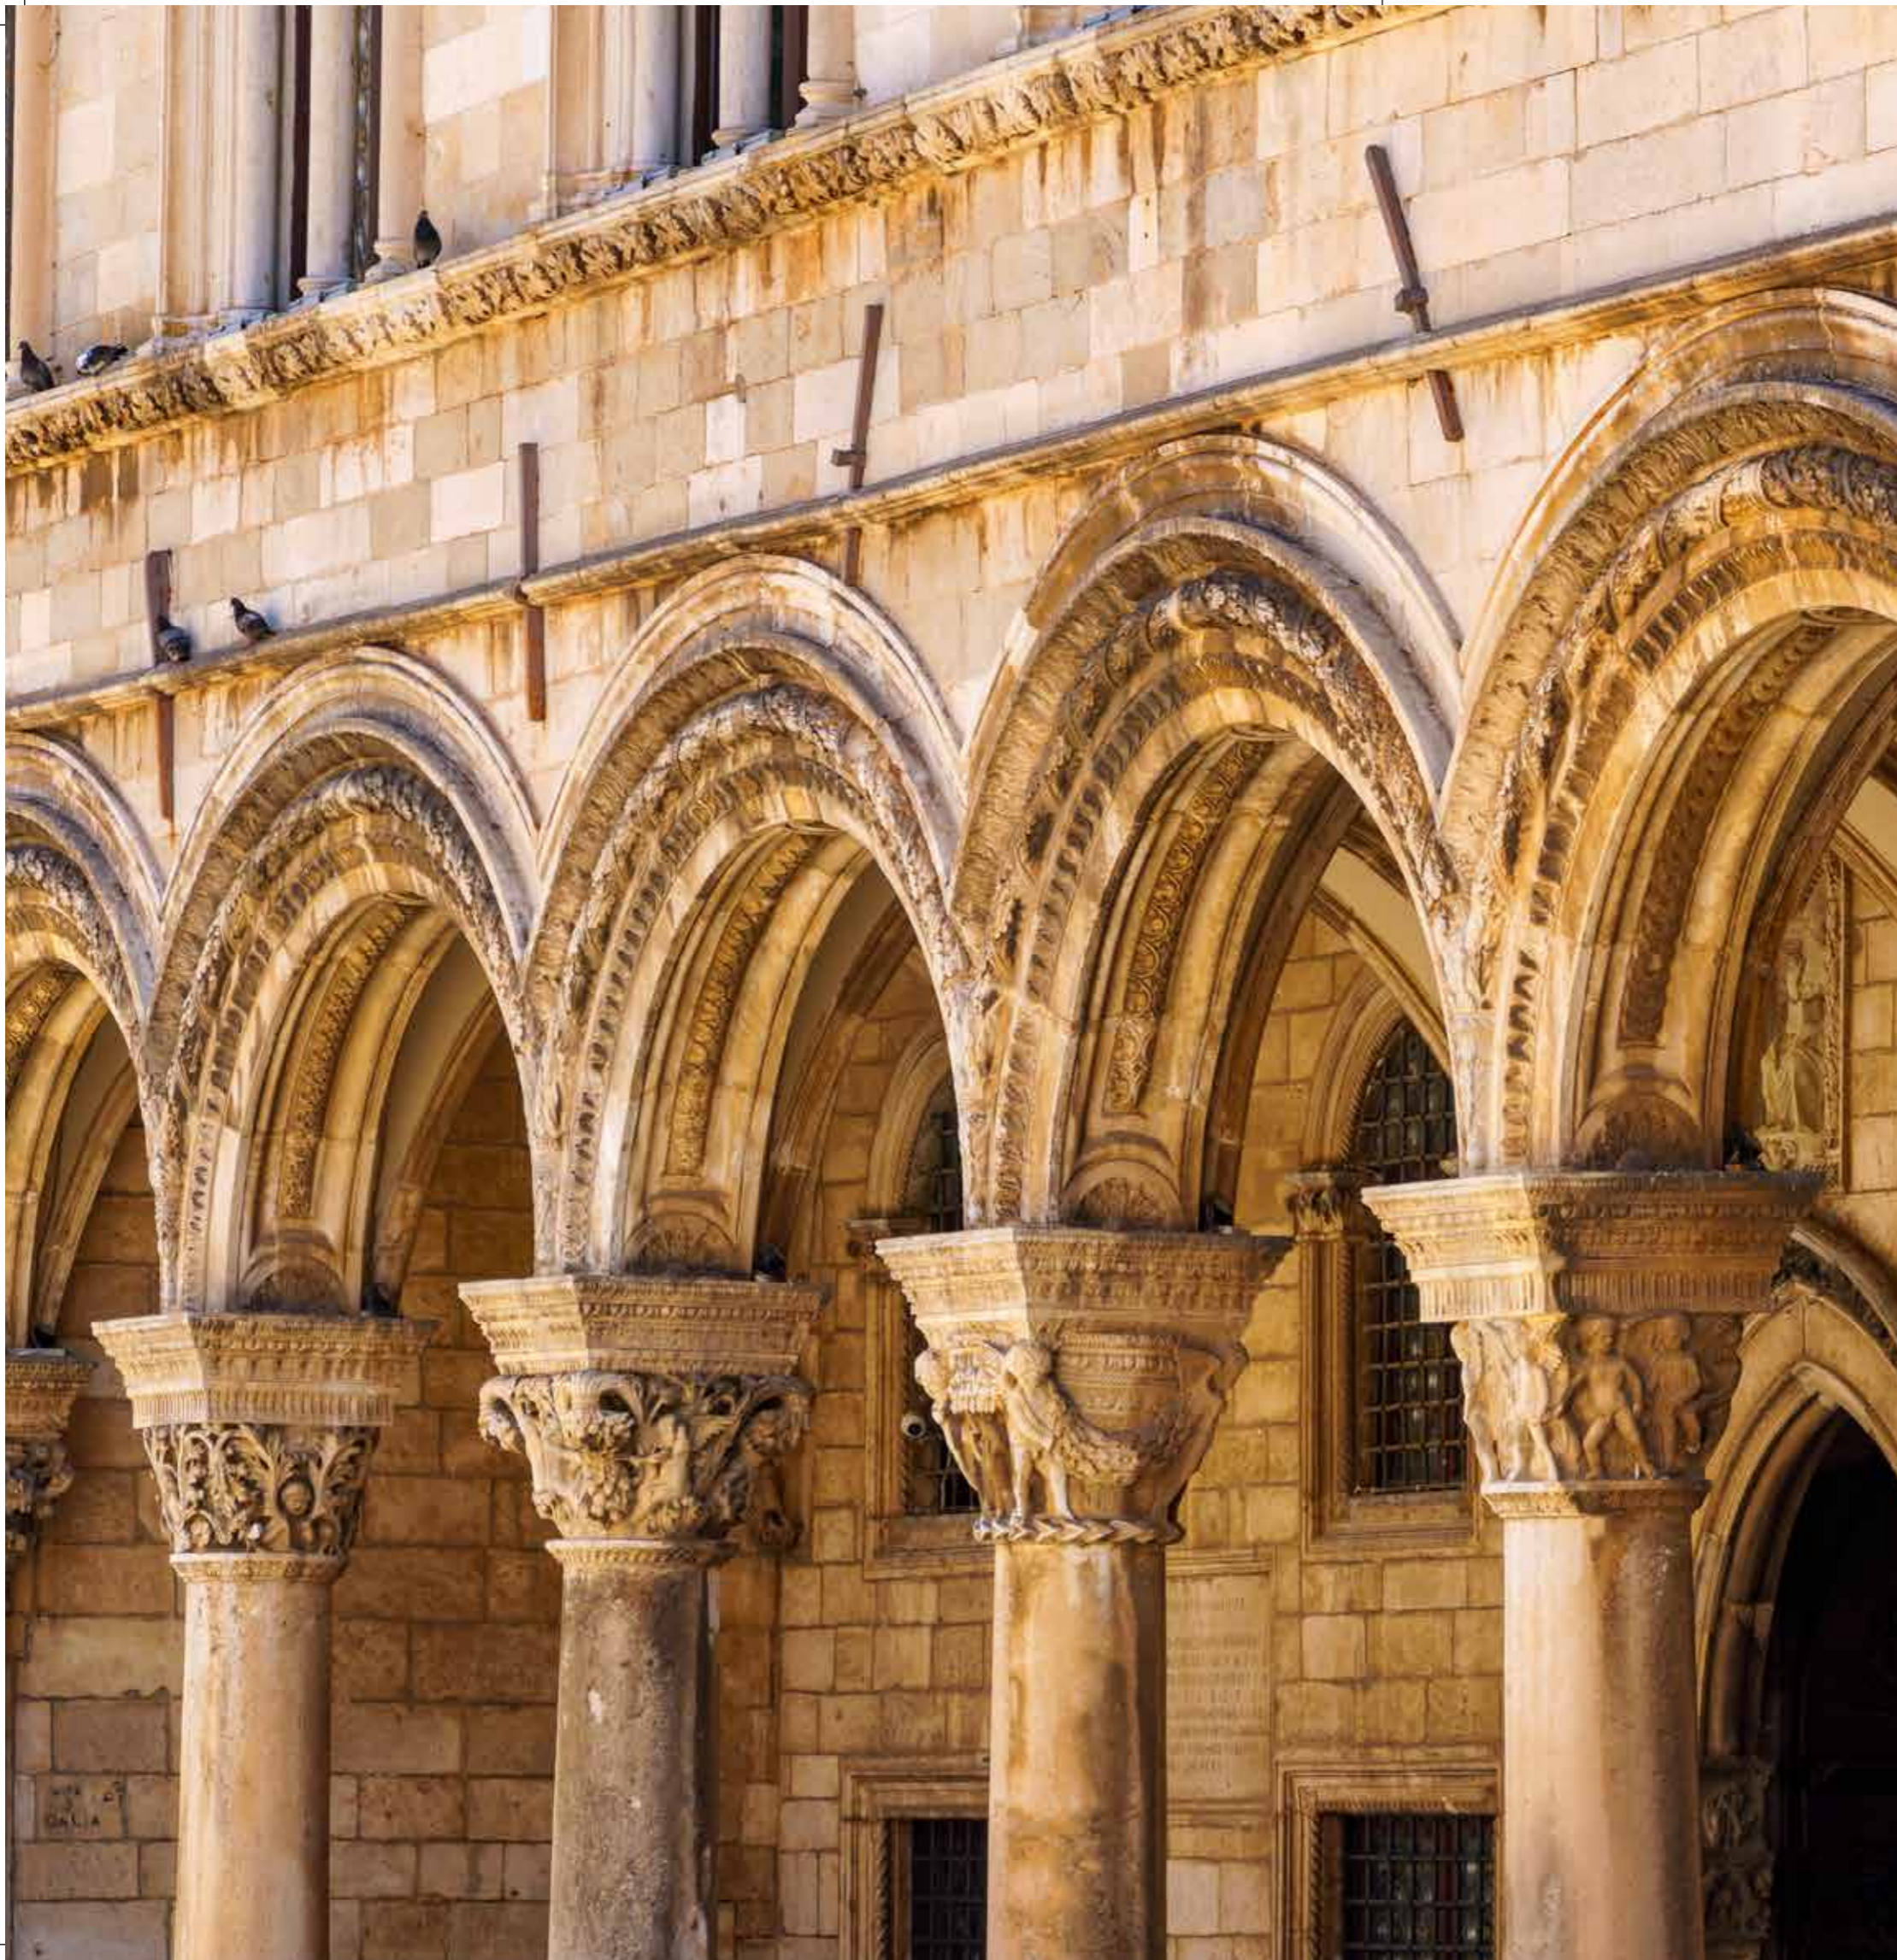

MODERN

Our modern range of designs express a sense of simplicity and luxury in every element. With clean crisp lines and elegant metallic colours, they have a progressive design that flaunts well-defined geometric shapes and soft curves. Luxurious forms meet a minimalist backdrop. Stylish lines, circular shapes, and nature-inspired forms come together in this concrete modern suite.

CLASSIC

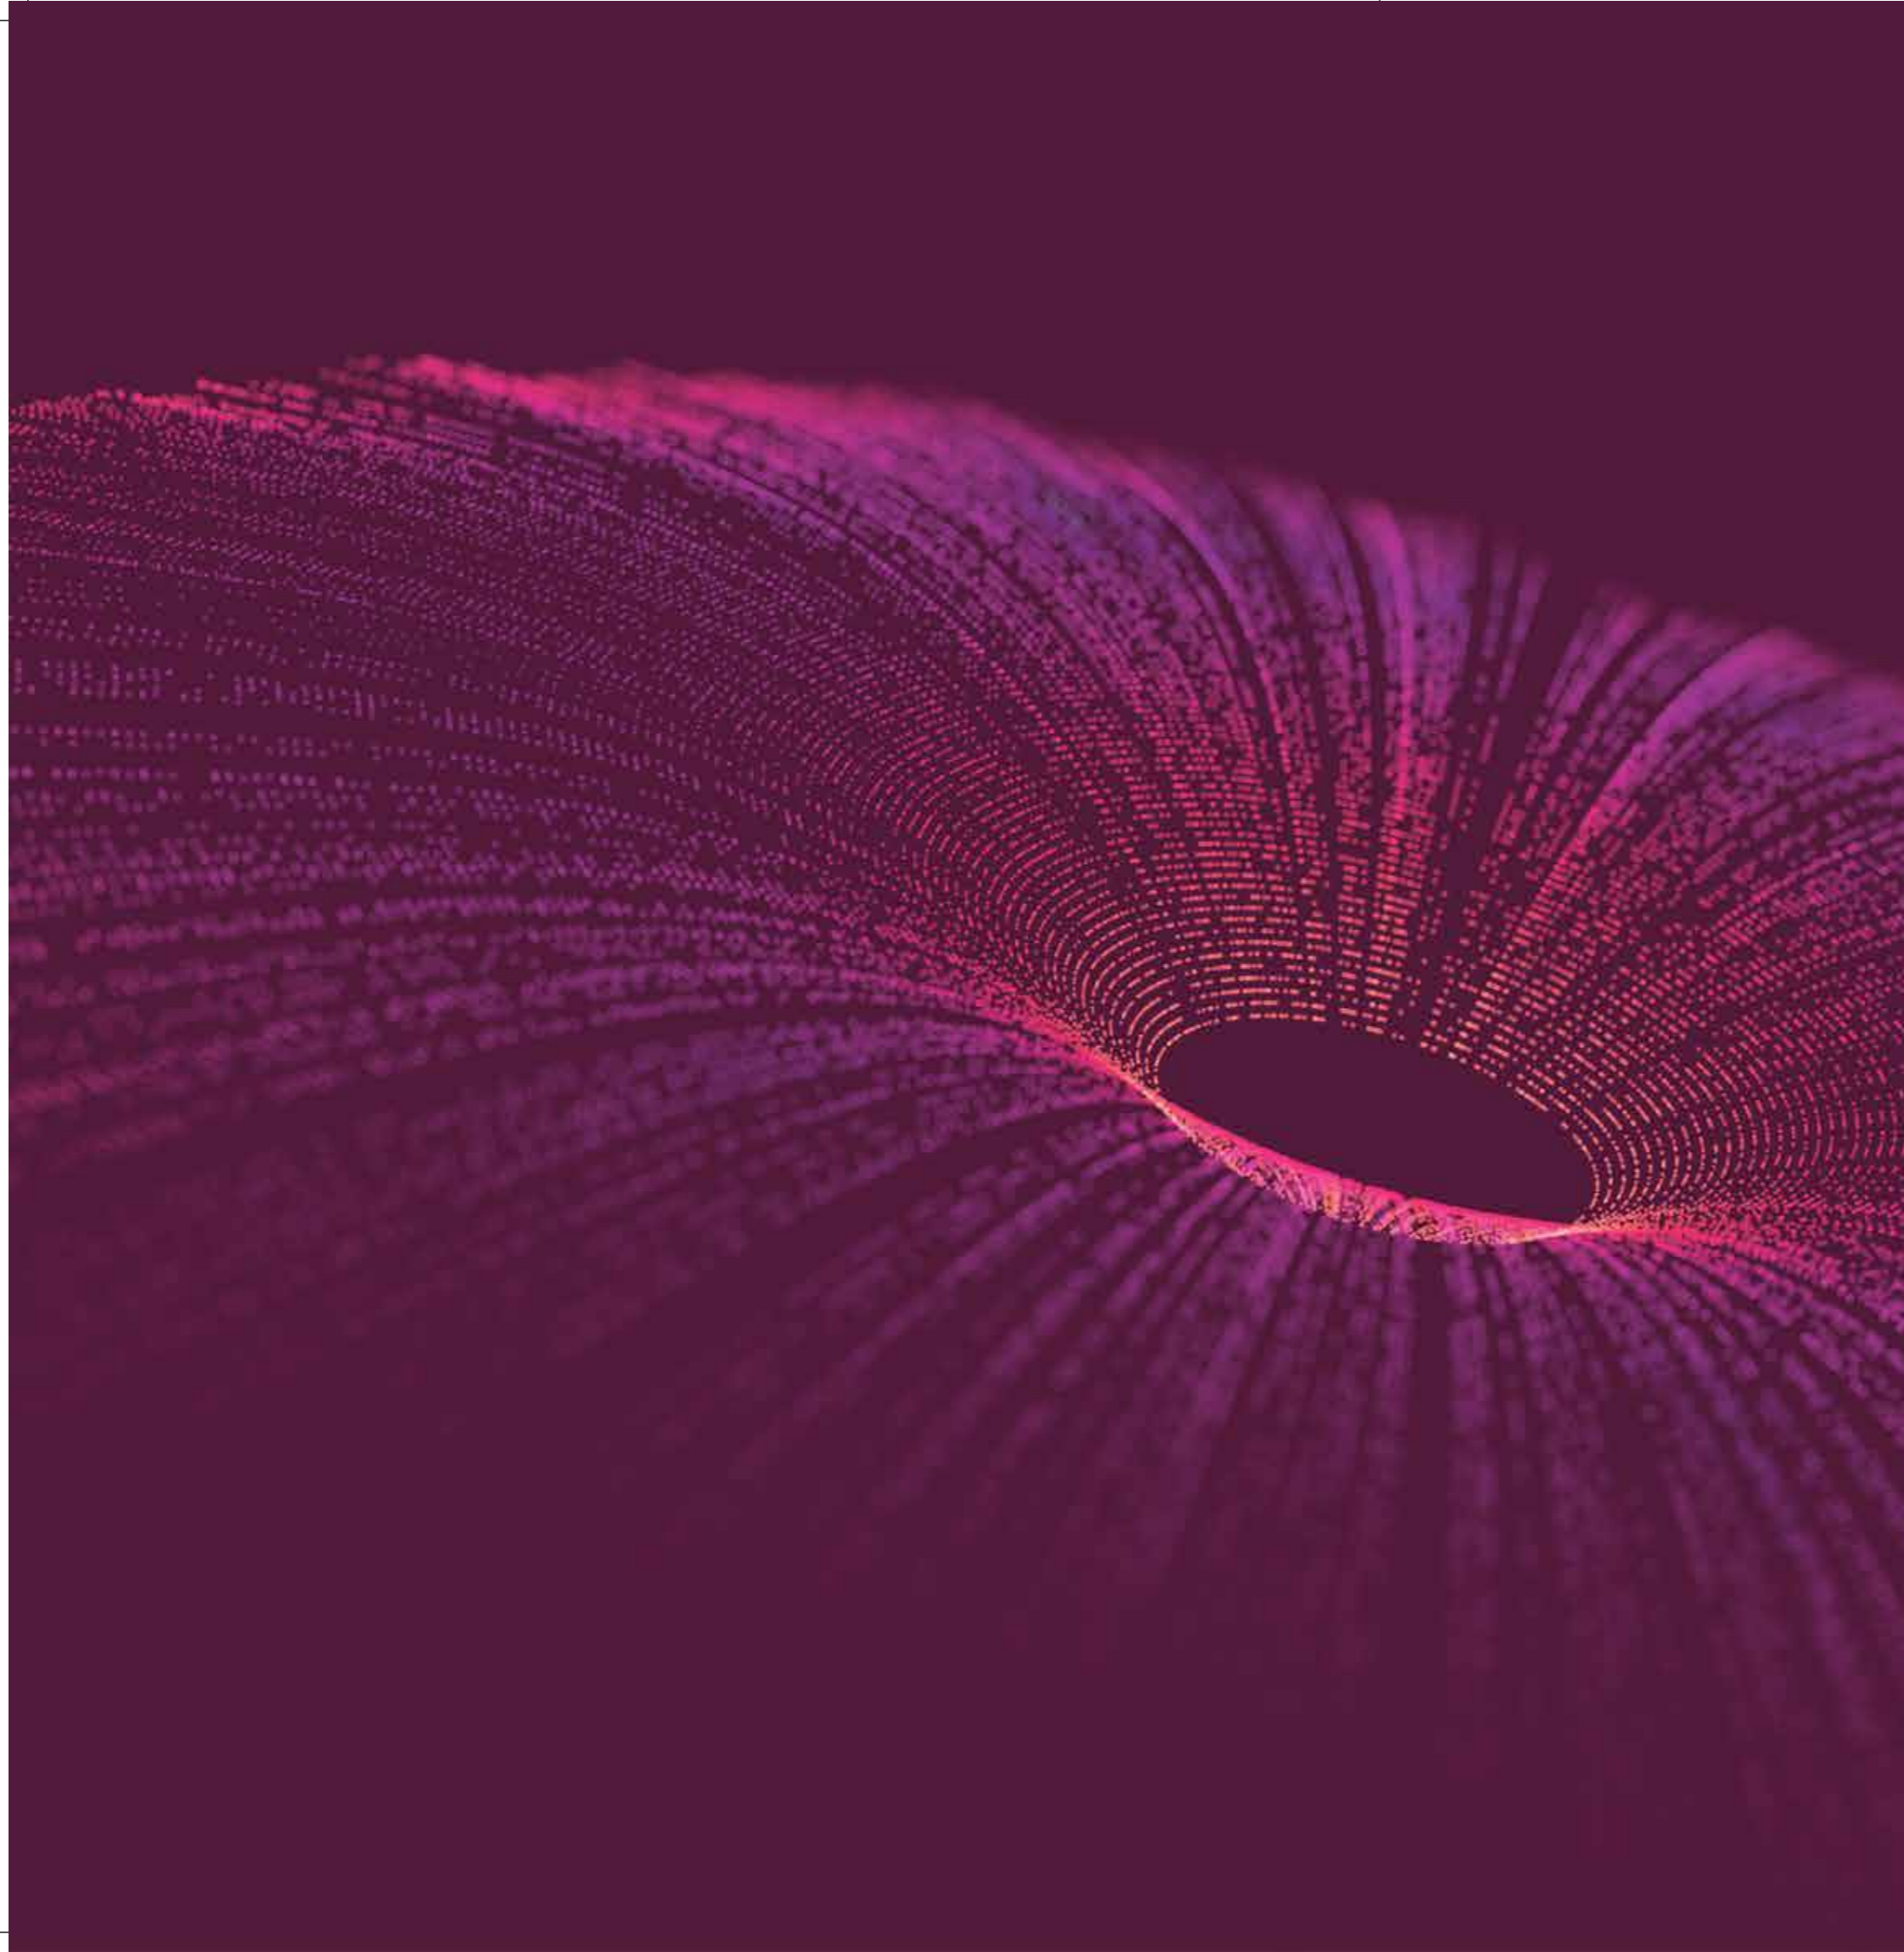

For something to qualify as a classic takes time and understanding of art & design. So, we brought forward the best of artistic minds to create products that resonate with the Indian sensibility. The extensive research, meticulous craft and the heart of every artist poured into the pieces have transformed them into classic masterpieces.

HERITAGE

Art serves as a unifying force, weaving together diverse expressions into a tapestry of celebration. Queo masterfully captures these nuances, intricacies, and aesthetic elements to craft bath lounges that transcend mere utility. Crafted with precision and passion, each element of Queo reflects a commitment to artistic excellence. Each bath lounge is a testament to elegance and beauty, leaving an enduring impression on your bathing space. These aren't merely bath spaces, these are Queo Bath Lounges.

VISION

Art is a universal language, celebrated across continents. It embodies modern aesthetics and meticulous craftsmanship. Queo epitomizes these qualities, reflecting a dedication to detail and intricacy. Drawing inspiration from a tradition of sublime design and indulgence, Queo bath lounges are crafted by visionary minds steeped in contemporary design philosophy. They offer a unique opportunity to infuse your bathing space with timeless elegance and sophistication, leaving an indelible mark of luxury and beauty. It's no wonder we refer to them as bath lounges—they transcend ordinary baths, offering an unparalleled experience.

Experience the extravagance of **WELLNESS**

The bathtubs by Queo that constitute "WELLNESS" are a lavish experience that helps you wash away all the stress and worries. A sight to behold and crafted by some of the finest masters of ceramic from around the world, the bathtubs come stylised according to distinctively unique aesthetic collections that give exquisite form to functionality.

AROMATHERAPY

A form of alternative medicine, Aromatherapy purely uses volatile plant materials identified as essential oils and similar aromatic compounds from plants that lend a higher state of life. These essential oils enlighten and enrich the mood and soul. Not just that, they also help the circulation system, support the immune system, regulation of human hormones, and aid skin regeneration to name a few. Among its other wonders, Aromatherapy is also known for its psychological benefits such as mental clarity, stress relief, and mood improvement. All-in-all with Queo's Wellness Collection, Aromatherapy is just a stepping-stone into a world of mindfulness and happiness.

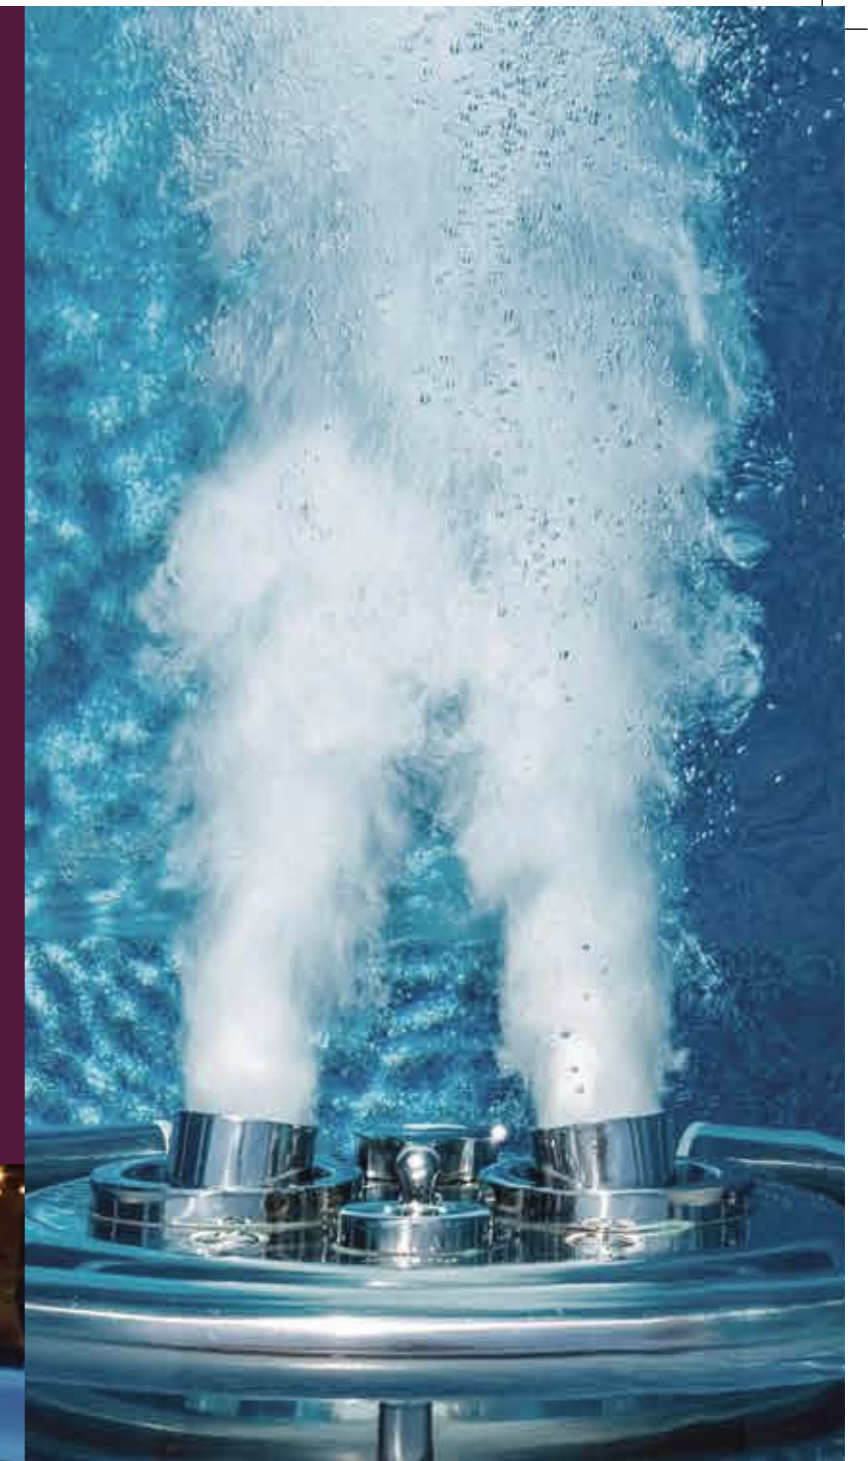

THE HEALING EDGE

CHROMOTHERAPY

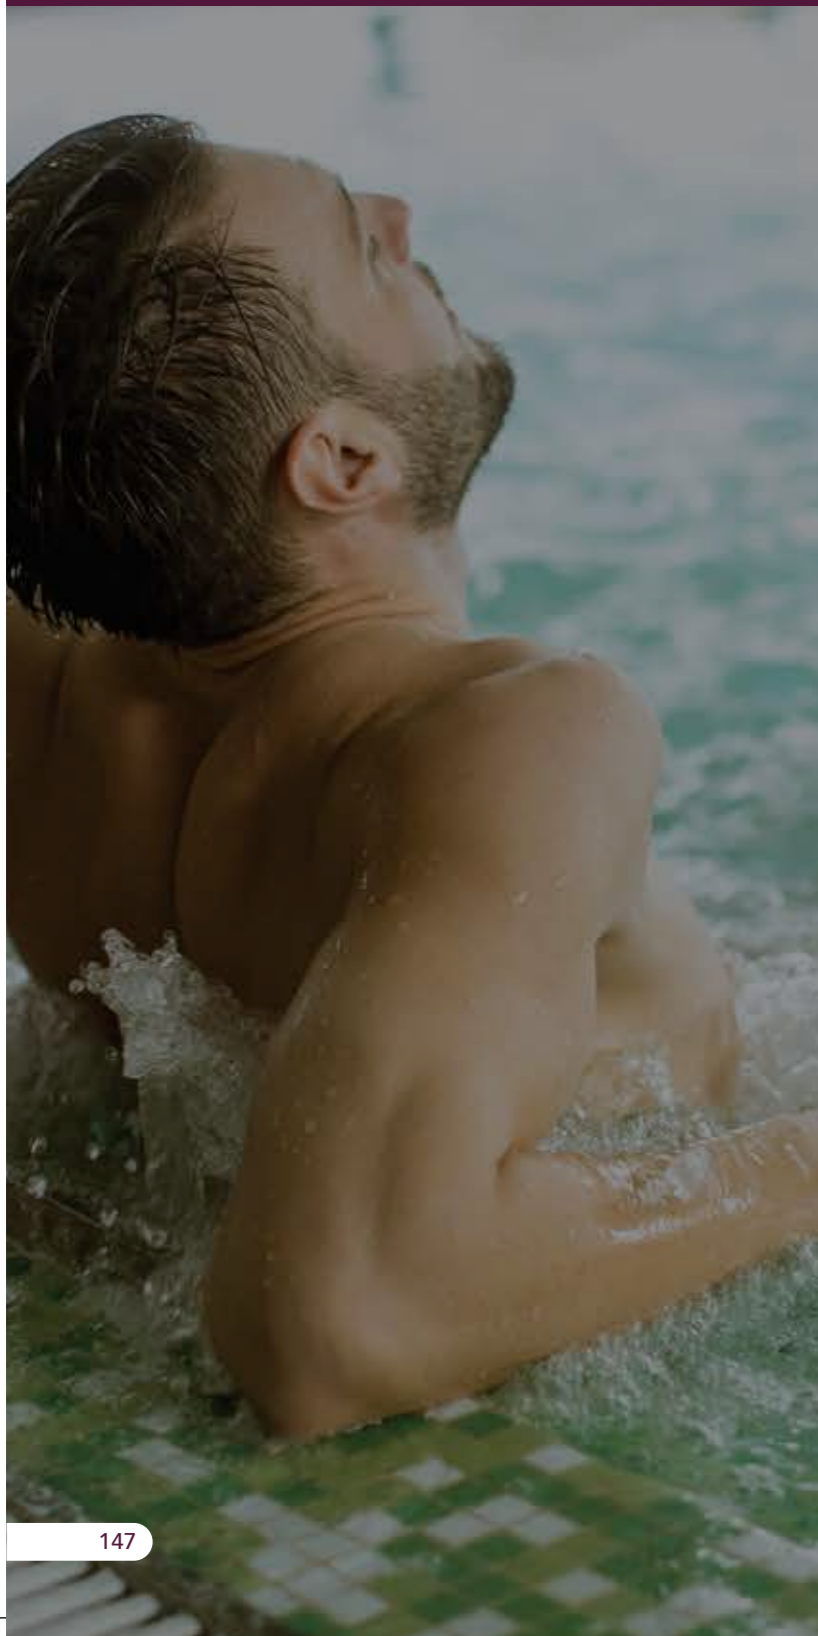

Chromotherapy is commonly known as colour therapy, light therapy, or colourology, highlighting and focusing on the fact that certain colours have the power to uplift one's mood. Using the shade spectrum of vibgyor, this therapy triggers the healing points of the body and mind. With therapeutic qualities of light and colour, Queo's wellness collection is here to help you relax, rejuvenate, and replenish.

HYDROTHERAPY

Water is known as the essential health cleansing element. Its natural minerals with restorative and detoxifying properties helps revitalize the body. With the help of Water Jet Massage or Hydrotherapy, one can reboot and be relieved of some common health disorders. This therapy entails point-to-point pressure through water bursts in warm, cool, or an invigorating contrast of both. Heat soothes the body, slowing down the activity of internal organs. Cold, in contrast, stimulates and invigorates, increases the internal activity of organs. And with Queo's Wellness Collection, Hydrotherapy unburdens the mind and revives the spirit.

THE TECHNOLOGICAL EDGE

ACTIVE SAFETY SYSTEMS

QUEO features an RCD (Residual Current Device) as standard. The RCD immediately stops electrical flow to the unit, if it detects a short circuit, lack of water supply or overheating.

WATER LEVEL SENSOR

QUEO features a Water level Sensor as standard. The motor will not come into action if the water level is below the water jet level.

ABSOLUTE QUALITY OF RAW MATERIALS

QUEO uses a pure Lucite Acrylic that is rigid and notably scratch-resistant. Not just that, it is also impervious to acids, grease and water.

Queo's obsession with using only top-quality materials ensures long lasting good looks.

MICRO-NANO BUBBLE SKIN CARE SYSTEM

Negatively charged micro nanobubbles attract bacteria, and when they break, they create heat and hydroxyl radicals that destroy those bacteria. Taking a micro nanobubble bath regularly can prove good for skin detoxification and dermatoses improvement.
